Airline Partners

Our preferred airline partner is Virgin Atlantic who offer scheduled daily non-stop flights from both London Gatwick and Manchester to Orlando International Airport. We also offer the convenience of local departures from the 18 regional airports shown on the map (although these departures require a change of plane en route).

As USAirtours also has their own exclusive allocation of seats onboard Virgin flights at the most popular times of year, we are usually able to offer you the exact travel dates you require.

We can also offer flights on any of our six airline partners below.

BRITISH AIRWAYS

British Airways is the only other airline to offer a daily non-stop scheduled service from London Gatwick. They also offer a non-stop flight to Tampa and at only 67 miles from Kissimmee, it is often considered a quicker and quieter airport to use. You can also upgrade to World Traveller Plus and Club Class for much less than you think.

American Airlines®

American Airlines offers a 1-stop connection to Orlando and include a free stopover in Miami, Chicago or New York in each direction. If you like the idea of adding an exciting city stay to your Orlando experience we would be happy to plan a tailor made itinerary for you.

Continental Airlines

Continental Airlines offers a 1-stop connection to Orlando and include a free stopover in either New York or Houston. They fly both Boeing 777 & 767 wide bodied aircraft and passengers are seated no more than one seat from the window or aisle and can move about easily in the cabin.

Delta

Delta Air Lines offers a 1-stop connection to Orlando and also includes a free stopover in New York. They recently upgraded their transatlantic fleet to brand new Boeing 767 aircraft and have just announced a merger with Northwest that will significantly expand their network and increase the number of cities available to stopover.

UNITED

United Airlines offers daily 1-stop connections to Orlando using wide bodied Boeing 767 aircraft that feature a seat-back video entertainment system. They also offer a free stop en route in either Washington or Chicago and we would be happy arrange a stopover for you in either direction.

U.S AIRWAYS

US Airways operates a daily service from London Gatwick and Manchester year round and from Glasgow on a seasonal basis. They offer a generous seat pitch of 34 inches and their award winning personal entertainment system allows you start, stop and rewind programmes (should you fall asleep in your very comfy seat!)
